

# One-Day Defibrillation Course

## COURSE TITLE **One day Defibrillation Course**

### DESCRIPTION

This very practical course will allow suitably qualified First Aid personnel to use the AED competently and with confidence. Not only does this course deal with the use of an AED but also revisits some basic First Aid skills, including resuscitation

Cardiac Arrest is the biggest killer in this country. The majority could have been saved if a defibrillator was made available. Automated External Defibrillators (AED's) are now becoming more common throughout a range of workplaces. A casualty's survival rate will dramatically increase if an AED is available and if you have appropriately qualified personnel to use it.

### DURATION

A minimum of 6 hours consisting of theoretical and practical activities.

### SYLLABUS

A range of subjects is covered including:-

Assessment of the situation  
Dealing with an unconscious casualty  
Heart Attacks  
AED – Safety Measures

Chain of Survival  
Resuscitation  
AED - Maintenance  
AED – Its use Scenario training

### CERTIFICATION

There is a formal assessment at the start of the day in order to ensure that all students can resuscitate. In addition to this, there is an assessment at the end of the course including the practical use of the AED. This qualification is valid for 12 months.

### NUMBERS

A maximum number of 6 students are allowed and must be aged a minimum of 16 years or above.

### LOCATION

We are able to deliver this course on your site, reducing your costs in respect of additional time out and travelling.
